

canal lock *(ca-nal-lock)*

Definition

n. A section of a canal that is closed off with gates in which the water level can be raised or lowered to move boats from one level to another.

Example Sentence

The **canal lock** allowed the boat to navigate the different water levels smoothly.

More Example Sentences

Engineers designed the **canal lock** to facilitate the passage of ships through the hilly terrain.

Synonyms

sluice; watergate; floodgate

Antonyms

open water; free flow; unimpeded passage
