

standard notation *(stand-ard-no-ta-tion)*

Definition

n. A way of writing numbers that is commonly used, especially in mathematics, where numbers are written in their usual form as opposed to scientific notation.

Example Sentence

In **standard notation**, the number 4,500 is written as four thousand five hundred.

More Example Sentences

Mathematicians often use **standard notation** for clarity and simplicity in calculations.

Synonyms

normal form; usual form; conventional notation

Antonyms

scientific notation; exponential form; compact form
